

## Central Coast - Lake Macquarie Rose Region

email: [cclmregionalrosesecretary@gmail.com](mailto:cclmregionalrosesecretary@gmail.com)

Chair: Veronica O'Brien phone: 02 433 20604

Meetings are on the 3<sup>rd</sup> Sunday of each month at the Woodbury Park Community Centre

1 Woolmers Cres. Mardi at 1.30pm for a 2.00pm start

Signature Rose  
'Tahlia'

# NEWSLETTER - JUNE 2019

FOR THE BUDDING ROSARIANS

### *A message from the Chairperson*

Overseas Travel is nice but it is always lovely to come home specially to this lovely Autumn weather.

We could do with a decent rainfall .in the meantime remember to water your roses also put time into your research before you select new Roses. Once again Buy Locally. Gardenworld Ourimbah already has their first shipment of Roses and it is very pleasing to see the great quality. They have stocks of "The Unconventional Lady" which is a beautiful rose.

Our new Venue is working well. If you know of any speakers who are available on a Sunday please let your committee know.

Enjoy the Autumn and don't stress about Pruning. Happy to advise please phone.

Highlights from China:

Cheers  
Veronica

When at last I took the time to look into the heart of a flower, it opened up a whole new world  
*Princess Grace of Monaco*

## Message from the Secretary:

### WELCOME !

We welcome two new memberships to our Club: James and Judy Gordon from Jilliby, and Frances Brock from Kincumber.

### APPROACHING the end of the 'membership-year'

In July we will send out (NEW) renewal forms to those members whose membership renewal is due. If you have a current membership renewal form, please do not use it, as we had a change in Head office and we are waiting for the new membership officers details. In August we will hold our AGM and only financial members can nominate/vote, and also only financial members have access to our heavily discounted NEUTROG products, which will be ordered in August.

### MEMBER RESEARCH

Thanks to those members who kindly made the effort and responded to our request to provide us with information of how the club is going and what direction we should take. We received 20 replies and as far as these papers reveal, members didn't reject our venue change, are interested in guest speakers, interested in hands-on experiences, appreciate exchange of experiences during our club meetings, are happy to receive a newsletter, and also like to have excursion tours and garden visits and some provided some suggestions of what kind of subjects guest speakers should cover.

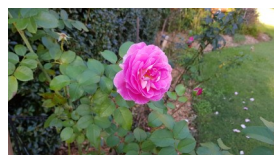

### WE NEED VOLUNTEERS TO PROMOTE OUR CLUB ON 8<sup>th</sup> AND 9<sup>th</sup> JUNE in Dooralong Valley

Our Club will have a promotional stand on Saturday/Sunday 8<sup>th</sup> and 9<sup>th</sup> of June to attract new members where we will hand out membership forms. On both days we need volunteers for whatever time you can make available, the time is on each days from 10.00am till 3.00pm. PLEASE get in contact with our Chair Veronica O'Brien and let her know if you can assist:  
Phone 0419 484 864 Or email: [vtobrien@bigpond.net.au](mailto:vtobrien@bigpond.net.au)

### What are the top performing roses in YOUR Garden?

It was suggested, that we ask all of our members to nominate up to five top performing roses they grow in their gardens, and share these information at our meetings.

## Upcoming Events:

Please find a list of upcoming events which may interest you. If you are aware of any future events, here on the Central Coast or in NSW, please let me know well in advance, so that I can include them too.

08 & 9 June *DOORALONG SHOWCASE COUNTRYWISE*,

10.00AM – 3.00-PM Farm displays & animals, Entertainment, Arts & Craft, and Food.

Guest speakers offering advice on hybridising and growing.

Potting demonstrations. Plants for sale.

Contact: 0404 041 803

The rose is a flower of love. The world has acclaimed it for centuries. Pink roses are for love hopeful and expectant. White roses are for love dead or forsaken, but the red roses, ah the red roses are for love triumphant.

*Unknown*

## What's In A Name

Hybrid Tea **Rose Peter Frankfeld** is probably one of the very best dark pink varieties Hybrid Tea roses. It provides a colourful display from late spring to late autumn. Hybrid Tea roses are hardy, vigorous, long (repeat) flowering and disease resistant making them ideal plants to have.

**Peter Frankfeld** was a German comedian, radio and television personality.

After *World War II* he became an interpreter with the U.S. military government. In 1948 he went into broadcasting. He pioneered quiz programs on West German radio and television, becoming the country's best-known programme host and entertainer. In 1962, he and director Heinz Dunkhase discovered the comedy sketch "Dinner for One" in Blackpool which was staged in Frankfeld's live show shortly thereafter, and recorded on 8 July 1963. The show was re-run occasionally on German television until it got its fixed spot on New Year's Eve in 1972.

## Rose Care Calender: Tips for June

Before planting bare root roses soak the plants in a bucket of water with seaweed solution for at least two hours. Make a mound in the hole and place the roots over and down around the mound. The bud union needs to be facing north or west and sitting 3-5cm above ground level. Backfill the soil halfway up the hole. Water well, poking around the roots to maintain soil and root contact. Let this drain for 15-20 minutes, then back fill to soil level and water lightly. This will minimise air pockets. Do not use fertiliser in the planting hole as this will likely burn the new roots that develop. We recommend using Neutrog's Seamungus in June and July as it is an excellent soil conditioner, gentle acting, and it will help plants settle in and get growing new roots and shoots ready for spring.

## Did you know that

A **rose** is a woody perennial flowering plant of the genus **Rosa**, in the family Rosaceae, or the flower it bears. There are over three hundred species and thousands of cultivars. They form a group of plants that can be erect shrubs, climbing, or trailing, with stems that are often armed with sharp prickles. Flowers vary in size and shape and are usually large and showy, in colours ranging from white through yellows and reds. Most species are native to Asia, with smaller numbers native to Europe, North America, and north-western Africa. Species, cultivars and hybrids are all widely grown for their beauty and often are fragrant. Roses have acquired cultural significance in many societies. Rose plants range in size from compact, miniature roses, to climbers that can reach seven meters in height. Different species hybridize easily, and this has been used in the development of the wide range of garden roses.

The name rose comes from French, itself from Latin *rosa*, which was perhaps borrowed from Oscan, from Greek *ρόδον* *rhódon* (Aeolic *βρόδον* *wródon*), itself borrowed from Old Persian *wrd-* (*wurdi*), related to Avestan *varəda*, Sogdian *ward*, Parthian *wâr*.

## May Meeting's Member Speaker Karen

Karen Thong presented a very interesting slide show with commentary about many aspect of roses, from purchasing roses, growing roses, the right tools, fertilizing, pruning, which again resulted in a very interactive communication with the members. Well done Karen, and many thanks.

## Photos from Karen's Talk on Garden Maintenance for Roses

### PART 1—GENERAL

See **Note** below

**Note:** Yates Rose Shield Black Spot and Insect Pest Killer controls various insects, mites and diseases on roses and ornamentals. Highly effective combination of a low toxic synthetic pyrethoid insecticide and a systemic broad spectrum fungicide.

Available from Bunnings

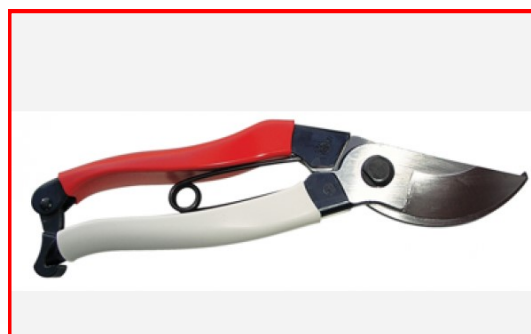

## Photos from Karen's Talk (..continued)

### PART 2—PRUNING

See pruner note below

Note: Recommended long lasting **pruner** available from Japanese Tools Australia
