

Hunter Valley Rose News

The Rose Society of NSW Inc

8/31/2020

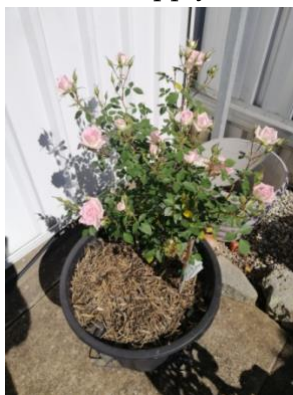

August 2020

Our first official meeting since Covid began was a lovely celebration with the presentation of Life Membership to Pat Williams and 25yr membership to Geoff and Evelyn Johnson.

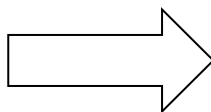

This September, we will have a guest speaker from the Bee Association. Pruning should now be completed and new shrubs planted. When planting new bushes make sure you plant in a slurry so there are no dry spots around the root formations. Immediately cover the planting area with mulch to help slow water evaporation. Water daily for the first week after planting. Do not allow the soil around the rose to dry out. Spring is well on it's way as our roses are sending new shoots in all directions.

Figurine is certainly producing a bountiful supply of blooms.

Grown by Shirley Layton. Photo taken 31st August 2020

Due to Covid restrictions you must RSVP for each meeting as only 20 people are allowed to attend. It will be on a first in basis. Phone or email Secretary. If regulations change those that RSVP will be sent an email or telephoned the night before the meeting.

For your stock of Neutrog please contact Geoff Johnson on ph:49372635.

Governor Macquarie Rose –Signature Rose of the Hunter Valley Regional Rose Society
