2. For the purpose of exhibiting roses, a rose shall be judged according to the classification given to it in the latest version of Modern Roses.
3. Where there is more than one stem or cut to a vase, they shall be of the same cultivar unless otherwise stated in the Schedule. All cultivars should be named.
4. Society vases to be used in all classes unless otherwise specified. Bikini vases in all Championships.
5. Floral Foam can be used in all containers but must not extend past the top of the container, if used, it will be at exhibitors expense.
6. Stem: Original new growth which carries a single bloom or bud and has received no check from pinching, stopping or pruning from the time of starting into growth to flowering. Disbudding is not regarded as a check to growth under this definition. The stem should be proportionate in thickness and length to the size of the bloom it supports.

7. **Cut:** A cut is similar to a stem (original new growth) that carries one bloom and buds Or buds or more than one bloom with or without side buds.
8. **Bunch Roses:** Roses are to be shown in single stems to the specified number per vase. A vase should have good length of stem and good foliage, blooms should be uniform in size and at an even stage of development. Same cultivar, unless other wise stated.
9. **Bloom:** A bud is considered a bloom when one or more of the petals has started to unfurl.

The flowers and foliage should be artistically arranged to avoid either crushing or excessive gaps and without exposing such expanses of stem or foliage that the flowers are not the dominant feature of the exhibit. Artificial or foreign substances not to be used e.g. leaf gloss or artificial colour on leaves that is felt tip pen or ink.
18. **Information for Exhibitors:** Staging and judging to be in accordance with the Rose Society of NSW.
